HEALTH INFORMATION

As we navigate through the winter months, it is crucial to address the impact of influenza on our school community. We wanted to provide important information regarding influenza precautions and managing school absences during this time. If your student or students have vomiting, diarrhea, or fever, they may not return to school for 24 hours or until their symptoms have resolved without the use of over-the-counter medication. Please keep your students home if they experience ANY flu-like symptoms. This helps prevent the spread of the virus within the school community.

Thank you for your assistance in keeping all of our students healthy.
